BluTec Systems

Operating out of Chanhassen, MN USA, BluTec Systems is structured to serve customers from around the world. Our staff is available 24x7, seven days a week to handle any inquiry or question you might have.

We are here to serve YOU. Thank you for allowing us to help you with your wireless point to point needs.

Installation Services

Since 2001, BluTec Systems has installed more links (750+) than any other North American provider of point-to-point solutions. Our manufacturer-certified installers are proficient across all brands of FSO or RF products.

Their job...is to make the integration to your network environment as seamless as possible. Taking just two days, we promise your vital infrastructure services will go uninterrupted.

Purpose of Link: Karlee Company outgrew their original building location and needed to expand to a neighboring warehouse location. With 100+ employees at the remote site, connection to their data network for both voice and data was vital. However, running fiber through existing municipal infrastructure was cost prohibitive and a four month process.

So instead, Karlee Company contacted BluTec Systems for a wireless point to point link to solve their problem. A **Trimble PX-P0400E1000** proved to be the perfect fit.

Have a limited budget yet need that network connection within 30 days? No problem. Get a QuickQuote today.
