

Trimble

Center Theatre Group

Los Angeles, CA

Distance: 50 Meters Speed: 1.0 Gbps Full Duplex

Purpose of Link: Center Theatre Group in Los Angeles was looking to connect their Music Performing Arts Center to their main network building. Located in the heart of downtown Los Angeles, trenching fiber optic cable was difficult, timely and expensive. Instead, CTG turned to BluTec Systems for a wireless point to point link to connect the two buildings. The model installed was a **Trimble PX-P0400E1000**.

A Free Space Optics solution was ideal for this customer due to the prevalence of other significant RF transmission traffic in this urban setting. With FSO, beam diameter is extremely narrow and can pass effectively through spaces no larger than 8-12 inches.

BluTec Systems

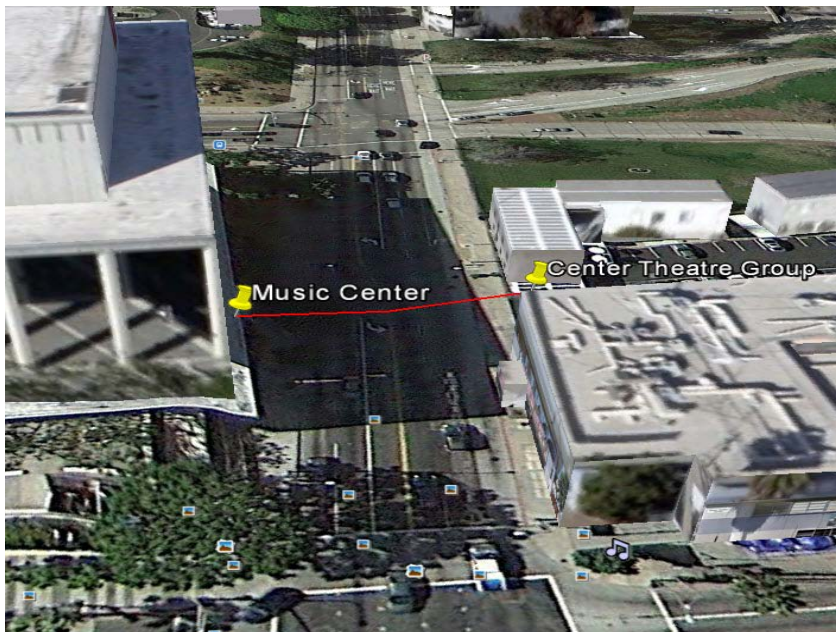

Operating out of Chanhassen, MN USA, BluTec Systems is structured to serve customers from around the world. Our staff is available 24x7, seven days a week to handle any inquiry or question you might have.

We are here to serve YOU. Thank you for allowing us to help you with your wireless point to point needs.

Installation Services

Since 2001, BluTec Systems has installed more links (750+) than any other North American provider of point-to-point solutions. Our manufacturer-certified installers are proficient across all brands of FSO or RF products.

Their job...is to make the integration to your network environment as seamless as possible. Taking just two days, we promise your vital infrastructure services will go uninterrupted.
